Memorial High School

Campus Improvement Team

Multi-Purpose Room

Thursday, November 18, 2010

Agenda

- Introductions – New members were introduced.
- Construction / Project Team
    - Planning and Construction-SBISD Project Manager Richard Skalski
    - Architects- SHW Jennifer Henrikson & Derrick Vaughn
    - Engineering- DBR Thomas Landers (Mech) & Bruce Bartlington (Elect)

The Project Team visited the CIT and reviewed the upcoming construction. As part of the 2007 Bond Program campuses were assessed for systems integrity. This portion of the Bond Program was designated as Systems / Facility Upgrades. The majority of the work identified for Memorial High School includes replacing or upgrading the comfort heating and cooling systems, the electrical infrastructure as well as the security system currently at the campus. Please view the following link for more information regarding the Bond Project for Memorial High School.

- Parent Concern/Thefts – A parent asked us to discuss recent thefts regarding cell phones. The majority of thefts have taken place and continue to take place in locker rooms where

students have not locked their belongings in a locker with a lock. Steps taken by the campus staff include reminding students via daily announcements to lock their lockers. In addition, all coaches have been asked to lock the cage doors every period. Coaches have also diligently reminded students to use a lock. This topic has also been addressed in the recent Mustang Express. We have noticed a down turn in recent thefts. Please remind your students about using a lock to protect their belongings.

For your information Semester Exams
